

What makes the solplanet 05-12kh-t2 T3 series unique?

The ASW 05-12kH-T2/T3 series offers seamless setup, commissioning, and monitoring through the intuitive Solplanet app. Intelligent work modes and customizable battery management, catering to depth of discharge (DOD), time of use, and power settings, ensure tailored energy solutions.

What is a solplanet h-t2 T3?

Elevate your solar experience with Solplanet's ASW H-T2/T3 series - where elegance meets unwavering performance. Behind its elegant facade lies a powerhouse with optimizing system efficiency for variable loads.

How to set parameters in solplanet app?

Procedure: Open Solplanet App to enter the login screen, and tap "Do not have an account" to enter Step 1: the next screen. Page 67 The end user and the business user have the different permissions for setting parameters. The end user only can set the parameter during commissioning.

How do I set up a solplanet inverter?

o... Turn the DC switch of the inverter to "ON" position. Set initial protection parameters via the Solplanet App. For details, please refer to "8.4 Create a plant". Switch on the AC circuit breaker. If the irradiation and grid conditions meet requirements, the inverter will operate normally.

How to create a solplanet account if I don't have an account?

8.3 Create an account If you do not have an account, you need to register a new account first. Procedure: Open Solplanet App to enter the login screen, and tap "Do not have an account" to enter Step 1: the next screen. Page 67 The end user and the business user have the different permissions for setting parameters.
