

Aggreko container Bulgaria

Where is Aggreko located?

Aggreko is a global supplier of mobile and modular power, temperature control equipment and energy services, headquartered in Glasgow, Scotland. The business was founded in 1962 and previously listed on the London Stock Exchange from 1997 to 2021. Aggreko was acquired by TDR Capital and I Squared Capital in August 2021.

What type of battery does Aggreko use?

Aggreko's energy storage solutions use batteries ranging from 30 kVA, 60 kVA, 250 kW, 500 kW to 1 MW. Regardless of your load profile, our smaller battery storage offers a robust, highly mobile solution for customers with varying needs. Their compact footprint and weight makes them easy to transport and appropriate for the smallest of spaces.

What is Aggreko Power?

Aggreko is the world's largest temporary power company. It has more than 10 gigawatts of power across its fleet globally. The company employs over 6,000 people and operates across the world in more than 200 locations in 80 countries and has offices in every continent.

What makes Aggreko different?

Aggreko offers several greener and cleaner HVO and solar powered generators and hybrid batteries that emit less emissions. Aggreko has supplied power to sporting events including the Ryder Cup, the FIFA World Cup, Formula E motor racing and SailGP.

What does Aggreko do?

As well as sporting events, Aggreko supplies power to support the National Grid in Burkina Faso, 26 villages in the Amazon and 20,000 solar panels at the Granny Smith Goldmine in the Australian outback. Aggreko's chief executive is Blair Illingworth. Its Board is chaired by Mike Smith.

What is Aggreko energy transition solutions?

In September 2022, Aggreko launched a new business unit in North America called Aggreko Energy Transition Solutions, which will develop, own and operate clean energy and sustainable infrastructure. Aggreko trucks shoreside and Aggreko genset aboard nuclear submarine HMS Trafalgar at the NATO nuclear Z Berth in Southampton Docks, December 2008.

Whether you're running a Floating Production, Storage and Offloading (FPSO) unit, a container ship, or a military vessel, we can tailor our state-of-the-art equipment to your needs. Don't get caught out at sea

Housed entirely within a standard 20ft (6.1m) container, the 1MW units can be delivered and quickly deployed worldwide. The system can cover a variety of applications from 1MW up to multi-MW power
