

The project sets a strong precedent for using renewable energy to drive down energy costs on the outer islands. Located on Union Island, the 600kW solar PV plant is connected to a 637 kilowatt-hour (kWh) lithium-ion battery, extending its generating capacity to supply all of Union Island's daytime power requirements.

The Commissioning of the Union Island Solar PV and Battery Energy Storage System on Monday 25th March 2019 has been hailed as a significant milestone in the energy sector of Saint Vincent and the Grenadines.

This is the Energy Report Card (ERC) for 2022 for St. Vincent and the Grenadines. The ERC provides an overview of the energy sector performance, highlighting the following areas:

- o Installed Conventional and Renewable Power Generation Capacity
- o Annual Electricity Generation, from Conventional and Renewable Plants

The Caribbean Development Bank has approved financing of \$8.6 million to St Vincent Electricity Services Ltd (Vinlec) for the supply and installation of solar photovoltaic (PV) systems at company buildings in the vicinity of the Argyle International Airport.

The Caribbean Development Bank has approved financing of \$8.6 million to St Vincent Electricity Services Ltd (Vinlec) for the supply and installation of solar photovoltaic (PV) systems at company buildings in the ...

Saint Vincent and Grenadines receives high levels of solar irradiation (GHI) of 5.2 kWh/m²/day and specific yield 4.3 kWh/kWp/day indicating strong technical feasibility for solar in the country.³ In 2021, 26.67% of the country's power demand was met through renewable sources.⁴

The ERC provides an overview of the energy sector performance in St. Vincent and the Grenadines. The ERC also includes energy efficiency, technical assistance, workforce, training, and capacity building information, subject to the availability of data. This ERC includes data and information that was provided by government ministries, agencies, or

Solife Inc. is a privately held EPC company located in St. Vincent and the Grenadines. We have been in operation since 2011 and have completed 3.8 MW of solar system installations on the island, and have consulted/assessed over 40 MW of Solar systems regionally.

This document presents St. Vincent and the Grenadines' Energy Report Card (ERC) for 2021. The ERC provides an overview of the energy sector performance in St. Vincent and the . Grenadines. The ERC also includes energy efficiency, technical assistance, workforce, training . and capacity building information, subject to the availability of data.
