Andes Mining & Energy (AME) es un productor independiente de energ a, establecido en Chile con activos en desarrollo y operaciones a lo largo de Chile y Per . Fue fundada en enero de 2008, cuando comenz  el desarrollo de su proyecto principal Termochilca, una central el ctrica de gas de ciclo combinado de 600 MW en Chilca, Per .

Although the ME system is generally used in the poultry industry for describing the energy requirements of birds and formulating the diets, a practical issue faced by commercial nutritionists is the conundrum of whether to use the AME or the AMEn in poultry feed formulations.

AME Energy is an engineering company that produces battery equipment ranging from small-scale R & D to large-scale manufacturing. They have installed battery pilots and manufacturing lines for companies. They have expanded their business and started supplying battery and super-cap materials including anodes, cathodes, substrates, binders,
