

Are you interested in learning more about energy storage for Micro grid & off-grid? Please share your contact details and we will keep you posted. Pixii AS is committed to protecting and respecting your privacy, and we'll only use your personal information to administer your account and to provide the products and services you requested from ...

ENGIE's first battery storage system in Slovakia, utilizing Pixii's PowerShaper technology, began operations in January 2024. This BESS is integral to ENGIE's multi-phase project, enhancing grid stability, supporting renewable energy integration, and laying the groundwork for future energy flexibility services in Slovakia.

The Pixii PowerShaper is a scalable energy storage solution that adapts to your changing demands. You can customize your system by adding more cabinets, each with a 50kW capacity, to match your load requirements. PixiiHome Energy storage 10kW / 20kWh Pixii home is a compact, all-in-one energy storage, saving you cost and reducing

Pixii has been recognised as the fastest-growing tech company in Norway, securing the top position in the prestigious Deloitte Technology Fast 50 awards. "Pixii's proprietary solution combined with an incredibly impressive growth of 10.205 percent from 2019 to 2022 makes them the fastest-growing technology company in Norway and thus the winner of ...

The partnership aims to streamline the EV charging landscape by seamlessly merging technologies and presenting a turnkey energy management solution with modular energy storage. "We are excited to partner with Pixii, the innovative leaders in the industry for energy storage solutions. This collaboration embodies our forward-thinking approach ...

Energy-Storage.news" publisher Solar Media will host the eighth annual Energy Storage Summit EU in London this week on Wednesday 22 and Thursday 23 February 2023. This year it is in a larger venue, bringing together ...

Battery energy storage allows you to boost your capacity when the demand is high. By participating in demand response programs and frequency regulation, your system's flexibility can generate additional revenue streams. This value stack of cost-saving and revenue-generating services ensures a faster ROI, making the battery pay for itself.

The PowerBase XL is a high-capacity energy storage system supporting up to 9 PowerShaper XL cabinets, offering 530kW of power and 1.8MWh of storage. Designed for quick deployment and cost efficiency, it leverages value stacking to combine energy savings with revenue-generating services like peak shaving and fast frequency support.

Polarium and Pixii have signed a Memorandum of Understanding (MoU) to jointly develop and market energy storage solutions including Polarium lithium batteries and Pixii inverters and related equipment.

This document describes the step by step commissioning of Pixii Home energy storage system. Empty space, drag to resize. 03.09.2024 Rev. 2.0. Open document. Pixii Home Commissioning Form. This document is a checklist to be completed during the commissioning of Pixii Home systems.

The PowerShaper XL is an IP55 modular and scalable energy storage system designed for energy-oriented applications. It offers up to 60kW of power and 200kWh of LFP batteries, making it ideal for optimizing energy use through solar self-consumption, peak shaving, and demand charge reduction, saving operational costs in real time. ...

ep Assets is the latest in the ep Group stable of energy transition companies and has been set up in response to demand from ep's clients for distributed energy systems. ep Consultancy advises corporates, investors, and governments on the energy transition and moving to net zero. ep Architects is an architecture practice focused on ...

Introducing the Pixii PowerShaper XL - the next evolution in energy storage. Designed for the dynamic needs of today's energy market, the PowerShaperXL family (PowerShaper XL, PowerShaper XL Indoor, PowerBase XL) delivers unparalleled performance and reliability for energy-oriented applications, building on the Pixii modular and scalable ...

With growing complexity in the energy market, you need a software configurable battery energy storage system that is flexible and will adapt to your needs, ensuring you always get the most from your investment. The PixiiBox is a bi-directional AC/DC power conversion module, allowing you to seamlessly scale both power conversion and energy ...

Value stacking is the art of combining multiple services in a Battery Energy Storage System (BESS) to unlock its full potential. While it is commonly believed that BESS is primarily for reducing energy costs, the true potential is unlocked when the BESS actively participate in the electricity market to support the balance of your local or regional grid.

Pixii Home enables homeowners to get more out of solar energy, cut electricity bills with smart energy saving functionality, and generate income by renting out battery capacity to support the local grid through ...
