Modified sine wave, as the name states, has a output which is different from the one from grid, but can power most of the household appliances. But, appliances like LCD/Plasma TV, that require pure form of power input may not work on these inverters. Modified sine wave inverters are cheaper then pure sine wave inverters.

Apex Power Concepts has emerged as an internationally acclaimed supplier and system integrator of Solar systems and energy storage specialist and is moving confidently to face new challenges of changing needs and technology.
