What is a standard electricity supply in Argentina?

Standard electricity supply is at a voltage of 220 Volts and a frequency of 50 Hz. Type C plugs, with two round pins, were traditionally used in Argentina, and may still be seen on older appliances. Type I plugs, with two flat pins forming an inverted V and one vertical flat pin, are more commonly in use.

Do I need a plug adapter if I travel to Argentina?

If you are traveling from the United States, you will need a plug adapter for your devices. The US primarily uses Type A and Type B plugs, which are not compatible with Argentina's Type C and I sockets. Additionally, the US operates on a 120V supply voltage, so you may also need a voltage converter for devices that do not support dual voltage.

Does Argentina have a universal plug adaptor?
