

Aruba is blessed with an abundance of sunshine, and the island is taking advantage of this natural resource by investing in solar power. The government has committed to increasing the renewable energy share of electricity generation to 10 percent by 2020, and they are already well on their way towards achieving this goal.

Power Outages in Aruba. While Aruba generally has a reliable power supply, occasional power outages can still occur due to factors such as storms or maintenance. To protect your electronics from power surges during these instances, consider using surge protectors. These devices help prevent damage to your equipment by diverting excess voltage ...
