Through my company, I provide solutions in energy autonomy, food and water autonomy. For over 30 years now I have been gathering knowledge to achieve my purpose and for the first time I am making this move to publicly declare my purpose.

Imagine a battery able to be charged and discharged from 100% to 0% and then recharged back to 100% in less than 10minutes and as many times as we need without degradation of the storage ability. ATLAS Flywheel Battery is based on Theodore Karavasilis Research started back in 2008 with manufacturing of high speed rotors and tests on them.
