2 & Generally, it is the goal of the Government to transform Barbados from a fossil fuel based economy to a 100% renewable energy and carbon-neutral island state by 2030. An integral component in achieving these policy objectives is the provision of concessions aimed at stimulating, in particular, private sector investment in the energy sector.

Foremost | 5,483 followers on LinkedIn. Foremost has been a central player in the Western Canadian energy story going back to 1948, when our energy equipment product lines were under the Universal Industries name.
