Please note that the current system of applying via email will be discontinued and the aforementioned system will be the only method of applying for an ELPA licence from February 2022. All applications submitted via the email system prior to February 1, 2022 will be addressed by the MEBD and do not need to be entered into the new system.

The Lamberts Wind Project, is a proposed wind farm in the parishes of St. Lucy and St. Peter. Once completed, it could provide enough energy to power 12,000 to 17,000 homes. It supports the goals of the Barbados National Energy Policy, in particular its target of supplying 100% of the country's energy needs

with renewable energy by 2030.

Most energy system modelling at the international level and in the SIDS is done with closed black-box energy system models (ESMs). Typically, these are pre-set models and the source code is unavailable for third party review (Hilpert et al., 2018; Pfenninger & Staffell, 2016). This makes the analysis of the raw data and the methods used impossible for external ...

Energy Efficiency Retrofit and Renewable Energy Finance Facility - The fund provided twenty-five (25) low-interest loans totalling BBD\$16,470,299.41 to businesses for the financing of renewable energy and energy efficiency projects.
