

When will Bess Vilvoorde be remunerated?

The construction milestone follows the project's construction permit in July 2023 and its selection for capacity remuneration in October 2023. With an installed capacity of 200MW on a 3.5-hectare site, BESS Vilvoorde will be able to store 800MWh of energy in 320 battery modules measuring 25m x 4m x 3m.

How much energy will Bess Vilvoorde store?

With an installed capacity of 200MW on a 3.5-hectare site, BESS Vilvoorde will be able to store 800MWh of energy in 320 battery modules measuring 25m x 4m x 3m. Equivalent to 160,000 5kWh domestic batteries, it will cover the electricity consumption of 96,000 households.

How did Bess perform in Q2 & 3?

However German BESS assets have seen a sharp revenue stack recovery across Q2-Q3, with revenues back above 150EUR/kW/yr levels in Q3. This recovery has been supported by strong intraday market volatility and real-time aFRR energy prices.

How did German Bess perform in Q1 2024?

Q1 2024 was challenging for German BESS, with achieved revenues plunging below 100 EUR/kW/yr as a mild winter & weak gas prices took hold, as shown in Chart 1. However German BESS assets have seen a sharp revenue stack recovery across Q2-Q3, with revenues back above 150EUR/kW/yr levels in Q3.

When will Bess Vilvoorde be launched?

BESS Vilvoorde will be launched in two phases, with the commissioning of 100MW of batteries in September 2025, and a further 100MW in January 2026. ENGIE is also developing two other BESS projects in Belgium for which the Group has already obtained permits, in Kallo (100MW/400MWh) and Drogenbos (80MW/320MWh).

Where are Bess investments coming from?

Great Britain, Italy and the wholesale electricity market for Ireland and Northern Ireland have emerged as the top three sectors for BESS investments in the region.

Similar to last year, battery energy storage systems (BESS) made up almost all new-build capacity selected in recent Capacity Remuneration Mechanism (CRM) auctions in Belgium. Simon De Clercq, senior research associate at Aurora Energy Research, tells ESS News that there is even more room for BESS players to participate in the procurement ...

The third edition of Aurora's European Battery Markets Attractiveness Report, which examined 24 European countries, says installed grid-scale BESS capacity across the region was 7.1GW in the third quarter of 2023. That is projected to rise to 51GW by 2030 and 98GW by 2050.

AURORA is a LoL team from Belgium. AURORA is ranked in the 779 place of Tips.gg LoL team rankings with a score of 535 points.
