Further, the Benivo platform connects directly to a variety of data sources to give immediate, centralised, and simple access to location prices, services reviews and data points. Learn more. Contact us today to learn more about launching locations on ...

Matthew Chic, Benivo, demonstrated how AI could enhance the entire mobility management experience. An AI assistant integrated into Benivo's platform can guide mobility managers step-by-step through processes like initiating employees, running cost estimates, and understanding immigration rules.

This collaboration illustrates how strategic partnerships can help large organizations overcome internal constraints and deliver innovative solutions quicker than they could alone. It's a model that other companies might well consider as they look to transform their own mobility and travel programs.
