

How does ceog fit with French Guiana's energy strategy?

The population of French Guiana is very quickly increasing. Guiana has to face a considerable energy deficit, especially in the west where the demographic growth is booming. By providing several MW of reliable and clean energy, CEOG fits with French Guiana's energy strategy.

How much CO2 does French Guiana produce?

In 2011, CO2 emissions in French Guiana relative to the electricity production was estimated at 360 GCO2/kWh which was four times higher than Metropolitan France (Figure 3). The lack of access to energy in the inland areas is a key issue at the heart of French Guiana's pluriannual energy programming.

Does French Guiana have a pluriannual energy program?

As Guadeloupe, Martinique, Reunion and Mayotte, French Guiana has its own pluriannual energy programming. With an objective of energy autonomy set on the 2030 horizon, they have to accelerate the large-scale clean energy deployment to improve energy access.

Is a solar park in French Guiana ready for green hydrogen production?

French hydrogen technologies developer HDF Energy (EPA: HDF), investment fund Meridiam and petroleum operator SARA have launched construction of a solar park with batteries and 16 MW of electrolyzers for green hydrogen production in French Guiana.

developing areas. Energy self-sufficiency has been defined as total primary energy production divided by total primary energy supply. Energy trade includes all commodities in Chapter 27 of the Harmonised System (HS). Capacity utilisation is calculated as annual generation divided by year-end capacity x 8,760h/year. Avoided

In French Guiana, a community of indigenous Kali'na began actively resisting plans for the world's first baseload renewable power plant using hydrogen technology - the CEOG project - in ...

fostering equitable energy futures while protecting the Amazon rainforest--which covers 95% of French Guiana--and safeguarding the rights of indigenous people became a central issue in the Prospérité case.

French Guiana has offered to assist Guyana in the development of renewable energy. The offer was made by French Guiana's Minister of Energy, Marie-Laure Phinra-Horth, during a meeting with Guyana's Minister of Natural Resources, Vickram Bharrat.

French hydrogen technologies developer HDF Energy (EPA: HDF), investment fund Meridiam and petroleum operator SARA have launched construction of a solar park with batteries and 16 MW of electrolyzers for green hydrogen production in French Guiana.

By providing several MW of reliable and clean energy, CEOG fits with French Guiana's energy strategy. Connected to the grid through EDF's power station of Saint-Laurent-du-Maroni, CEOG will meet the current and future needs of the population in the area.

fostering equitable energy futures while protecting the Amazon rainforest--which covers 95% of French Guiana--and safeguarding the rights of indigenous people became a central issue in ...

This paper aims to make an inventory of the energy situation in French Guiana, identify the challenges restricting the widespread use of renewable energy and propose some recommendations towards a sustainable development.
