

The aim of the comprehensive strategy of BOS Balance of Storage Systems AG is to establish the brand as a leader in innovative energy storage products with excellent and reliable quality. Transparency and sustainability of the entire value chain and product life cycle are always the focus of product development and all further actions.

The thoughtfully engineered energy storage systems are designed as turnkey solutions making it easy to build and maintain systems up to 300 kWh in challenging and remote areas. In the process, BOS supports customers as an expert and technical partner for customized systems in the commercial and development sector up to capacities in the MWh range.
