How much does a 1.5kw solar system cost?

Now that we've established the potential savings and benefits of a 1.5kW solar system,let's delve into the cost aspect. The typical price for a 1.5kW solar system is around \$3,000. It's important to note that prices have significantly decreased over the past decade,making solar energy much more accessible and affordable for homeowners.

Is there a rebate for a 1.5kw solar system?

The "solar multiplier" which favoured 1.5kW solar systems is gone. But don't panic! We still have a solar rebate! To cut a long story short, you can now get a subsidy of approximately \$350 for every kW installed. How many solar panels make up a 1.5kW system?

Is a 1.5kw solar system a good value?

Due to a scheme called the "solar multiplier" you used to get twice the rebate for the first 1.5kW of any system, compared to subsequent kWs. So in terms of dollars per kW,a 1.5kW system represented the best value. However, all that has now changed. The "solar multiplier" which favoured 1.5kW solar systems is gone. But don't panic!

How much money can a 1.5kw solar system save?

With a 1.5kW solar system, you can save up to \$465 per year. Over the 25-year lifespan of the solar panels, this translates to a savings of \$11,634. These savings are based on the assumption that you will utilize the self-generated solar energy and reduce your reliance on grid electricity.

How many people can use a 1.5kw inverter?

In most cases, this would be a house of 1 - 2 people. When considering the placement of a 1.5kW system attention needs to be given to the energy usage of the household. 1.5kW systems can only be placed facing in one direction because of reasons to do with voltage on the inverter.

How much electricity does a 1.5kw solar system use?

These days, because panels are both larger and more efficient, a 1.5kW solar system only requires 3 or 4: How much electricity will a 1.5kW solar system generate? A 1.5kW solar system will generate approximately 6kWh per day. This is enough to run a third of an average aussie household.

The 1.5kw solar system is not advertised as much as the bigger systems as it won"t have a big enough impact on your electricity bills. It"s perfect for producing small amounts of energy but not enough to power larger needs.

Buy our high quality 1.5kVA solar power system with installation. The system includes a one year free repairs warranty. PACKAGE SPECIFICATION. 1.5kVA Pure sine wave inverter; 2x ...
