About Brenmiller Energy Ltd. Brenmiller Energy delivers scalable thermal energy storage solutions and services that allow customers to cost-effectively decarbonize their operations.

The company was founded by Avi Brenmiller, former CEO of Siemens CSP and Solel, and a team of experts in the field of renewable energy. Since 2012 the company has developed a patented thermal energy storage technology based on storing heat using crushed volcanic rocks.

Balance Sheet Update. As of June 30, 2022, Brenmiller had cash and equivalents of \$9.1 million. On May 24, 2022, the Company closed the second tranche of the investment by certain private ...

Established in partnership with leading renewable energy developers Green Enesys and Viridi, Brenmiller Europe S.L., assumes responsibility for Brenmiller Energy Ltd. projects in major European ...

Founded in 2012, Brenmiller's team has extensive experience in developing, manufacturing and deploying market-leading thermal energy technologies. Developed over the past Decade, Brenmiller's bGen(TM) technology has withstood rigorous testing in the harshest, most demanding energy market environments.

It offers crucial protection to industrial factories and power plants, shielding them from the intermittent nature of renewable energy and fluctuations in energy market prices while providing uninterrupted 24-hour electric heating.
