

Bst battery Hong Kong

Are BST batteries safe?

For over 20 years, BST's longer-lasting batteries and systems have provided critical safety applications, back-up power and propulsion for our customers. As a leading battery company, BST's innovative, safe, and reliable technology delivers high performance on Battery Energy Storage Systems and Battery Cells.

Who is BST power (Shenzhen) limited?

BST Power (Shenzhen) Limited: As one of the leading high temperature nickel battery, UPS battery, solar battery, telecom battery, emergency light battery manufacturers and suppliers in China, we warmly welcome you to buy customized products made in China here from our factory. All products are with high quality and competitive price.

What is a BST battery?

It is based on Lithium-Ferrite (Li-Fe) cells. The BST's Li-Fe battery technology offers 10x more cycle over Li-Io or Li-Po batteries and is significantly less hazardous. The battery block is protected for over charging (non-destructive), tolerant against deep discharge (non-destructive) and offers cell balancing.

What services does BST offer?

Today, we offer various services from customization of our standard battery pack line to one-stop BESS solutions. For over 20 years, BST's longer-lasting batteries and systems have provided critical safety applications, back-up power and propulsion for our customers.

About battery aging. Batteries are a consumable item whose remaining life decreases with age. If you notice that you need to charge your battery more often than usual after a long period of use and that your usage time is noticeably shorter, have your battery checked by your local service center to see if it is time for a replacement as batteries lose life not only with use but also due ...
