

The Bulgarian Ministry of Energy announced on December 6 that it has received proposals worth nearly BGN 5 billion, which far exceeds the available funding of BGN 1.154 billion. "I am satisfied with the serious interest in the construction of renewable energy storage facilities," said Energy Minister Vladimir Malinov.

Some experts argue that so far energy storage is not a major issue in Bulgaria, thanks to Bulgaria's plentiful operational coal and nuclear capacities. However, the country needs to comply with European Union rules for emissions reduction, ...

A strong battery segment requires a good manufacturing base. Belgian company ABEE launched a EUR 1.1 billion project a year ago for a battery plant, recycling facility and a research and development center in Bulgaria. Solar MD, a battery manufacturer based in South Africa, opened its LiFePO<sub>4</sub> Energy Storage manufacturing facility in Rousse last ...

IPS was established in 1989 and specializes in R&D and manufacturing of power conversion technologies and turn-key energy storage solutions. Over the past four decades, IPS has delivered world leading products and turn-key power solutions to 59 countries around the globe.

This event will bring together the region's leading investors, policymakers, developers, utilities, energy buyers and service providers all in one place, as the region readies itself for storage to take off.

AES is the world leader in lithium-ion-based energy storage, both through our business project and joint venture, Fluence. We pioneered the technology over one decade ago, and today almost half our new projects include a storage ...

Bulgaria on Wednesday launched a long-delayed tender for at least 3,000 MWh of new energy storage capacity as part of its efforts to increase the share of renewable energy sources, particularly wind and solar, in the country's energy mix.

AES is the world leader in lithium-ion-based energy storage, both through our business project and joint venture, Fluence. We pioneered the technology over one decade ago, and today almost half our new projects include a storage component.
