

How much energy does Burundi use?

Energy in Burundi is a growing industry with tremendous potential. As of 2020, Burundi consumes a total of 382.70 million kilowatt hours (kWh) of electric energy per year. The country produces locally 69% of the electricity it consumes, with the rest imported from other countries.

Is biomass a source of electricity in Burundi?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Burundi: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

What is Burundi's main energy source?

Its most important power source is hydroelectric power, representing 95% of total production. It also uses energy from other renewable (wind, solar, biomass, and geothermal) and coal power plants. Burundi has the world's lowest carbon footprint per capita at 0.027 tons per capita in CO₂ emissions as of 2019.

Mauritius-headquartered Hydroneo East Africa has requested expressions of interest (EoI) for the design and construction of the 10MW Mpanda hydroelectric power (HEP) project on the Ruzibazi river in Bubanza. Once complete, the plant will be Burundi's first HEP independent power producer (IPP).

Burundi green line energy

A permanent economic crisis characterised by inflation and fuel shortages is driving an unplanned green revolution in Burundi as consumers flee one of Africa's worst performing utilities for the long-term security of off-grid solar systems. But even in this unforgiving environment some utility-scale projects are advancing thanks to determined international support.

A wet day is one with at least 0.04 inches of liquid or liquid-equivalent precipitation. The chance of wet days in Bujumbura varies very significantly throughout the year. The wetter season lasts 7.2 months, from October 5 to May 11, with a greater than 35% chance of a given day being a wet day. The month with the most wet days in Bujumbura is November, with an average of 18.4 ...
