

# Can the TV storage cabinet be placed in the middle

Where should a TV be placed in a living room?

'If you own a small to medium sized living room, it would be ideal to place your TV on a small cabinet or stand (typically around knee height) in one of the corners adjacent to the windows as this will give you optimal positioning whilst removing the possibility of glare,' Melissa says. 6. Build TV storage along one wall

Can you put a TV in a room?

While there are options for freestanding TVs that can be located anywhere in a room (as long as you can run it to a socket still), the most common way to bring a TV into the center of a space is with a piece of millwork, created as a divider between spaces.

Should you put a TV wall in your living room?

A TV wall is a great option if your living space is small, and you want your entertainment center to be one of the main features in your living room. When it comes to placement, Jess Harrell advises, "Place the middle of the TV at your sitting eye height so you don't have to look up and strain your neck." 3. Off-Centre

Can a TV fit into a small living room?

But if you're struggling to squeeze a television into your tight living space then we have a few small living room TV ideas and tricks up our sleeve. Small living room ideas call for ingenuity, creativity and great problem solving - so consider your tiny living space an opportunity to exercise all of the above.

Should you put TV storage in a corner?

Hung on the wall, with no supports or legs to distract the eye, it keeps floors clear and creates a 'floating' effect which aids the feeling of spaciousness. Consider corner TV storage too if space is really at a premium. Angled units fit neatly into a corner, leaving more floor space available.

How do you hide a TV in a living room?

Put it in the corner Rule number one of hiding your TV is not putting it right in the middle of the space, or above the mantelpiece, as this puts the TV far too high up in your living room hierarchy. Slot it into a corner, as shown above.

Using a remote, you can pop it up or hide it in the cabinet when you're done using it. 7. Cover It With a Wall of Cabinets. You can hide all your appliances behind a dedicated wall of cabinets. You can have your ...
