

Canadian Solar Panel Pressing

What is Canadian Solar doing?

Canadian Solar is building a state-of-the-art solar photovoltaic module manufacturing plant with an annual output of 5 GW, equivalent to approximately 20,000 high-power modules per day. The new facility represents an investment of over \$250 million and will create approximately 1,500 skilled jobs once it is fully ramped up.

Are Canadian Solar PV modules quality controlled?

This commitment to quality extends throughout the production process, with 411 quality control points for our solar modules, from source materials through to the packaging and pre-shipping inspection. Our quality control process ensures that Canadian Solar PV Modules are designed and built to provide safe, reliable, and long-lasting results.

Are Canadian solar panels good?

Canadian Solar offers some excellent solar panels at very good prices. The company's products compare favorably on performance with other top brands, and they stand behind them with excellent warranties. Based on product quality and the company's longevity and stability, SolarReviews recommends Canadian Solar panels.

Why do Canadian solar panels have quality control points?

These quality control points are consistently applied in all our factories globally, so that our customers can be sure that no matter where they are, their Canadian Solar panels uphold our commitment to excellence.

How long do Canadian Solar PV modules last?

Our quality control process ensures that Canadian Solar PV Modules are designed and built to provide safe, reliable, and long-lasting results. The highest quality standards give our products outstanding performance and longevity. Solar projects typically have a designed operating lifetime of 25 years.

Does Canadian Solar offer bifacial solar panels?

For commercial and industrial markets, Canadian also offers a bifacial solar module called the BiHiKu. For residential use in the United States, Canadian Solar offers three main solar panel module series: HiKu, HiKu6, and HiKuBlack. Here's some information about each of these products: Canadian's HiKu solar panels are their stock-standard offering.
