Solar panels outside CUC offices (CNS): Officials at the Caribbean Utilities Company have told CNS that their decision to challenge the release of two reports that CUC prepared for OfReg relating to the bidding process for future power generation is to protect "commercially sensitive information" that could help competitors in any future bids ...

GreenTech Solar at A. L. Thompson's is the first of its kind in the region and educates home owners and building professionals about eco-friendly technology, including solar and wind power. GreenTech provides solar panels and storage solutions, installed by their professional team.

A 100 MW solar farm would require approximately 587 acres (about 0.92 square miles) of land. To achieve equivalent daily production as a traditional power plant, a scaled-up 480 MW solar farm would need about 2,822 acres (about 4.41 square miles). This substantial land requirement is a significant consideration for our island's limited space.

Solar panels outside CUC offices (CNS): The utility regulator has approved new rates and capacity brackets to increase the number of people on Grand Cayman taking up renewable energy generation options. OfReg said CUC's Consumer Owned Renewable Energy (CORE) programme rates have stifled the adoption of green energy in Cayman and have done ...
