

Where can I install solar panels in Belgium?

For the installation of solar panels on the ground, on a protected building or in other regulated cases, you will have to contact your municipality. There are several companies active in Belgium that install solar panels.

Are solar panels a good investment in Belgium?

As soon as you install your solar panels, you'll notice a reduction in your electricity bill. Today, photovoltaics is an affordable investment for all Belgian households. The price of panels has fallen sharply over time (divided by 6 in 10 years!).

How much do solar panels cost?

The price of solar panels has dropped significantly in recent years. In addition, you can receive a subsidy from the government for photovoltaic panels. The average solar panel price is around EUR1.26 per watt peak (Wp), although the exact price depends on a number of criteria:

How much subsidy can I get for solar panels in Flanders?

Currently the maximum amount of subsidies you can receive for the instalment of solar panels in Flanders is EUR750. In 2024 the maximum subsidy will decrease to EUR375. The subsidy amount is always limited to 40% of the total investment costs including VAT, as stated on the invoices. What Is The Yield Of Solar Panels In Belgium?

Does Belgium have a photovoltaic market?

The PV market development over the last few years has been quite promising for Belgium. The year 2019 already confirmed the revival of the photovoltaic market. In 2020, Belgium exceeded 1 GW of newly installed PV systems.

Is 2020 a good year for photovoltaics in Belgium?

2020 was one of the strongest years for photovoltaics (PV) in Belgium. According to the Belgian PV installers, aspects such as a strong customer demand are currently positively affecting their business. Additionally high volume installers tend to install more large systems than in the previous year.

The CEB SOLAR PV SCHEME FOR DOMESTIC CUSTOMERS (HOUSEHOLDS) has been officially launched on 26 November 2021. However, the CEB will start accepting application for the Scheme as from 01 December 2021; CEB will neither consider nor ...

CEB has bought a rooftop solar power unit from domestic customers for 37 rupees and from bulk suppliers for 34 rupees up to now, and on July 1, the cabinet approved to reduce these prices. Based on the letter sent by the Secretary to the Ministry of Power and Energy, Dr Sulakshana Jayawardena, on August 6, CEB has issued the circular containing ...
