

Christmas Island aps advanced power solutions group

Advanced Power Solutions (aps), founded in 1970, is a producer of premium-quality batteries. Its plant in Gniezno/Poland has been known for producing alkaline batteries, starting with Zinc/Carbon batteries as part of Panasonic Batteries Europe.

APS Group has provided us with power solutions that not only support our sustainability goals but also boost our operational efficiency. Their service and expertise are unmatched, making them an invaluable partner to our business.

APS Group offers top-of-the-line Fensa generators, available for rental and sales, with capacities ranging from 20 KVA to 2500 KVA. Powered by SCANIA and Perkins engines, equipped with STAMFORD and LEROY SOMER alternators, and controlled by DEEP SEA systems, our generators ensure uninterrupted power supply.

APS is conveniently located in Livermore, California, part of the Silicon Valley in Northern California. In 1990, APS merged with a major supplier of high quality power supplies based in Taiwan allowing for Sales, Design and Manufacturing support on two continents.

Embark on an exciting journey with APS. Unleash your potential and chase your dreams alongside a professional community that celebrates diversity. Join us in shaping a future where your aspirations thrive!
