Workers at the Oltenia Energy Complex (CE Oltenia), one of Romania's largest energy companies primarily involved in coal-based energy production in the southwestern county of Gorj, had the chance earlier this year to pursue an 18-day course to become an accredited installer of solar photovoltaic panels.

Background. Cloverleaf's Energy Rhythm Assessment draws from research about circadian rhythm and circadian typology. Circadian rhythm refers to the internal processes which regulate the sleep/wake cycle and affect people's biological and psychological functioning in everyday life, health, and disease (Adan et al., 2012). These internal processes typically operate on 24-hour ...
