Our technology focuses on minimizing energy usage and waste to effectively renew discarded plastics back into a resource to make new plastics. We provide value for the litter that you may pick up when on a walk; helping to keep your ...

What are responsible national and global standards for recycling and creating a circular economy for hard-to-recycle plastics or single-use plastics? At Alterra, we have a simple answer to that complex question: more. And that more depends on many factors, from municipalities to businesses to consumers and their collective desire to do more.

At Alterra, we convert plastics back into their original building blocks to produce new plastics and other valuable products -- see how we do it. ... Partnering with leading energy companies, governments, and investors who share our mission to scale recycling globally.
