

Will Vietnam let power-guzzling factories buy power from wind & solar?

Vietnam will let electricity-guzzling factories buy electricity from wind and solar power producers, helping big companies like Samsung Electronics meet their climate targets and relieving pressure on the country's overstrained grid. The government decree allowing Direct Power Purchase Agreements (DPPAs) was approved earlier this month.

What is the development process for ground-mounted solar projects in Vietnam?

The development process for ground-mounted utility scale solar projects in Vietnam is laborious, time-consuming, expensive and still largely difficult to navigate for foreign developers without entering a strategic partnership, in whatever form, with a local Vietnamese counterpart.

What is Vietnam's solar power potential?

Vietnam's total technical potential for solar power is up to 1,646GW (1,569GW is the ground potential and 77GW is the water potential). The total scale potential for the development of large-scale solar power nationwide is approximately 386 GW.

How big is solar power in Vietnam?

The total scale potential for the development of large-scale solar power nationwide is approximately 386 GW. In the past two years, Vietnam has been in the leading position in solar power development in the ASEAN region., Vietnam's solar power sector grew strongly with a new capacity estimated at 17.6 GW in 2021.

What is the largest solar project in Vietnam?

Currently, the largest solar project in Vietnam, and indeed Southeast Asia, is the 600MW Dau Tieng Solar Power Complex, located in Tay Ninh Province, 100km away from Ho Chi Minh City. The project started commercial operation and began delivering power to EVN.

How much land does a solar system need in Vietnam?

Land identification, availability, and costs: Solar power still requires plenty of land - with current state-of-the-art systems in Vietnam typically larger than 8,000 m<sup>2</sup> /MW of installed capacity.

Bsc in Economics &#183; Economics graduate with demonstrated expertise in performing work duties according to established organisational regulations and protocols. Proven ability to tackle projects with skill and accuracy. &lt;br>I Possess ability to communicate complex and sensitive information in an understandable form to colleagues and clients. &lt;br>I have worked as an ...
