Is China's Great Wall a great feat of Engineering?

See China's Iconic Great Wall From Above China's Great Wall is one of the world's great feats of engineering and an enduring monument to the strength of an ancient civilization. This is one of the world's greatest feats of engineering.

Why did Xiongnu build a Great Wall?

As a sign that all of China was now one, the emperor decreed a great wall would be built along the northern border to defend against the mounted warriors of the nomadic Xiongnu of Mongolia; there would be no more walls marking boundaries between separate states in China because there would no longer be any separate states.

When was the Great Wall of China built?

Historians usually consider the defensive walls built during the Spring and Autumn period (770-476 BCE) and the Warring States period (475-221 BCE) to be the first sections of what would eventually become the structure known as the Great Wall of China, putting the wall at almost 3,000 years old. Can you see the Great Wall of China from space?

Why did Qin Shi Huang build a unified wall?

Qin Shi Huang took the remnants of truly ancient fortifications, walls, and earthworks begun in the fifth century B.C. and linked them into a unified wall circa 220 B.C. as part of a massive project to protect China against marauding barbarians from the north.

How was Jiayuguan's Great Wall built?

Jiayuguan's Great Wall section in west China was mainly built with dusty loess soil. Most of the (restored) Great Wall sections we see today were built with bricks, and cut stone blocks/slabs. Where bricks and blocks weren't available, tamped earth, uncut stones, wood, and even reeds were used as local materials.

What are Some Fallacies about the wall of China?

Other fallacies concerning the wall are that it was one of the Seven Wonders of the Ancient World, that it dates from the Qin Dynasty in 221 BCE, and that it was built as a symbol of national pride.
