Who uses Drax power?

Drax supplies renewable source power to over 165,000 businesses and organisations across the UK, including electricity from Drax Power Station. We provide and manage electricity for large industrial and commercial sector customers from our offices in Northampton and Ipswich. Opus Energy

Is Drax scrapping Europe's largest gas plant after climate protests?

Energy Live News. 30 July 2019. Retrieved 26 January 2021. ^ Ambrose, Jillian (25 February 2021). "Drax scraps plan for Europe's largest gas plant after climate protests". The Guardian. ^ "BBC Panorama: The Green Energy Scandal Exposed". BBC Panorama. 3 October 2022. Retrieved 4 October 2022.

What happened to Drax Power Station?

One significant change was the emergence of vertically integrated companies, combining generation, distribution and supply interests. In certain cases, it became necessary for generation assets to be divested, and so in 1999 Drax Power Station was acquired by the US-based AES Corporation for \$1.87 billion (US\$3 billion).

How many generating companies did Drax Power Station have?

Three generating companies and 12 regional electricity companies were created. As a result of privatisation, Drax Power Station came under the ownership of National Power, one of the newly formed generating companies. Over the years that followed privatisation, the map of the industry changed dramatically.

Does Drax have a multi-year supply deal with pathway energy?

British power company Drax said on Thursday it had reached an agreement on the terms of a multi-year supply deal of biomass pellets for Pathway Energy's proposed sustainable aviation fuel project in the United States.

This video showcases how Drax has transitioned as a business from coal to biomass. The global momentum for converting coal-fired power stations to biomass is growing as more countries work to reduce their emissions by moving away from fossil fuels to renewables while maintaining their energy security.
