

# Edge autonomy energy systems Guyana

Seamlessly integrated with wind, solar, and other alternative technologies, the Performer Series of power solutions from Edge Autonomy Energy Systems offers a downtime solution to ensure equipment stays functional - even under extreme circumstances.

Edge Autonomy Energy Systems (formerly known as Adaptive Energy) is a provider of backup and portable power solutions. It delivers battery tenders that integrate with wind, solar, and other alternative technologies as well as the Endurance Series products for use in pipeline monitoring and data collection.

Edge Autonomy Energy Systems's Chief Executive Officer is Mike Edison. Other executives include Ranvir Gujral, Chairman; Rick Martin, Vice President Operations and 2 others. See the full leadership team at [Craft](#).

Seamlessly integrated with wind, solar, and other alternative technologies, the Performer Series of power solutions from Edge Autonomy Energy Systems offers a downtime solution to ensure equipment stays functional - even under ...

Whether a mission calls for integration of a new payload in the field, commercializing patents, or developing a low-watt power solution, our energy components are developed to customize each system based on unique project needs.
