

With the energy storage industry facing unprecedented growth across the globe, we are excited to launch our inaugural Energy Storage Summit Central Eastern Europe in Warsaw, Poland. We will be highlighting the opportunities, challenges and lessons learnt across various countries as the region readies itself for energy storage.

The Energy Storage Summit Central Eastern Europe is set to return in September 2025 for its third edition, focusing on regional markets and the unique opportunities they present. This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of ...

We've designed and manufactured an entirely new line of energy storage products to meet the needs of grid energy storage, deployment, operation, and energy management for the next 20 years. Every detail in our AESI products makes them fundamentally easier to purchase, install, maintain and operate than any other energy storage alternative ...

With regulatory hurdles one of the biggest challenges to large-scale deployment of Energy Storage in Central and Eastern Europe, what are the lessons learned from the UK and how can these be implemented to achieve the net zero goals within the region and enable energy storage?
