A.R.E. Group was established in October of 2014 to bring state-of-the-art solar solutions & silicone technologies to Egypt. A.R.E Group created a complete solar manufacturing complex capable of producing high-efficiency solar products & components, maximizing the potential and capabilities of renewable energy solutions in the region.

a PV plant with a high procurement price at a location with low solar irradiation (e.g. North Egypt). Conversely, the lower limit is defined by the favorable availability and low procurement price of plants at locations with high solar irradiation in South Egypt. Analogously, this process is applied with the corresponding re-
