Potencial de energ a solar. La unidad de medida de la radiaci n solar se expresa en W/m² (Wattios por metro cuadrado). Hablamos de radiaci n solar en t rminos generales, para ...

El Salvador has experienced a remarkable 160-fold increase in solar energy generation capacity from 2015 to 2023, according to data from the Latin American Energy Organization (Olade). This surge is attributed to the growing number of solar farms across the country, which now contribute significantly to the national energy grid.

The Salvadoran Government, under President Nayib Bukele, is advancing the construction of Talnique Solar, the country's first state-owned solar power plant. Anticipated to start operations by the end of 2023, it will supply renewable energy to roughly 25,000 households. The endeavor is part of the government's focus on renewable energy to spur innovation, ...

AES-CMI alliance . The B sforo Project was born thanks to the alliance between AES El Salvador and Corporaci n Multi Inversiones (CMI). AES is a global company with 38 years of experience that offers sustainable and affordable energy in the 14 countries where it operates. Thanks to a workforce of more than 9,000 people, it delivers sustainable energy to more than 100 million ...
