

# Electrosales solar products Maldives

The project marks the largest solar panel installation in the Maldives by a single contractor to date - which will generate 5MW solar power per day. As per Environment Ministry, 7.3 million power units will be generated annually through this system - which will cut down fuel costs by the state on electricity production by MVR 15 million to ...

The Magey Solar program aims to streamline access to solar energy for residents while also reducing public expenditure on electricity. Eligible participants must be customers of Fenaka with an active electricity subscription.

Providing Maldives resorts a full solar power solution, Atoll Solar ensures you reap the maximum return from your solar energy investment. From installation to maintenance, our trained and certified team is committed to make solar power a seamless process for your property.

Solar distributors assist solar manufacturing companies by storing, handling and shipping their solar products to their buyers. On the other hand, they help solar contractor companies in outsourcing high-quality solar products.
