renew energy TCI is your certified installer in Turks and Caicos Islands to design, install and maintain Tesla's energy storage solutions. Rely on the best in class solution to provide you clean power from your solar system and provide resilience when the grid goes down.

The solar plus battery microgrids are among several strategic investments that FortisTCI is making to meet growing energy demand and accelerate the transition to renewable energy, reducing carbon emissions and lowering energy costs over time.

FortisTCI recently launched an integrated solar plus energy storage pilot project at a residential premises in Providenciales. The project will provide data on battery storage usage, costs and technology for the islands.
