

In its approach to delivering a 100% renewable energy target across 12 islands by 2020, the Cook Islands presents a rare insight into how planning requirements of high penetration renewable island systems vary with scale.

The Cook Islands Government aims to achieve 90% of their power needs from renewable energy by 2020. We helped the government realise its aim. To support the Cook Islands Government, the New Zealand Government - through the Ministry of Foreign Affairs and Trade, installed mini-grid photo-voltaic power systems in a number of villages on six remote islands.

We knew music would play a key role in people's lives. And we knew we wanted to support, bring closer, and evoke deep emotions in those who enjoy music as much as we do. That's why we decided our brand logo would be a heart. Since the very beginning, Energy Sistem's team puts its heart into creating devices with a person-centred approach.
