

What is ESCO labculture® Class II Type A2 Microbiological Safety Cabinet?

Esco Labculture® Class II Type A2 Microbiological Safety Cabinet (E-Series) blends the latest generation of energy-efficient DC ECM motor technology with Esco's experience of more than 25 years in biosafety cabinet design.

Do Esco cabinets use ULPA filters?

Esco cabinets use ULPA filters(per IEST-RP-CC001.3) /H14 per EN 1822 instead of H13 HEPA filters used on many BSCs in the market. HEPA filters only offer 99.99% typical efficiency at 0.3 micron,while ULPA filters provide 99.999% typical efficiency for particle sizes of 0.1 to 0.3 micron. Note: LA2 cabinets are compliant to NSF,EN,JIS,and CFDA.

Is ESCO responsible for errors in printed materials?

Esco can accept no responsibility for possible errors in catalogues, brochures and other printed materials. Esco reserves the right to alter its products and specifications without notice. All trademarks and logotypes in this material are the property of Esco and the respective companies.
