Our fully integrated solar roof is optimized for the aesthetical design of the whole house. The sleek vertical lines of a classy black roof will give your house an aesthetic look and blend in seamlessly with any neighborhood.

Enefit Green, the renewable energy arm of Eesti Energia, built altogether 285 solar power plants for clients of Eesti Energia in Estonia and 100 in Latvia during the year. The biggest of the projects was a solar park of 348 kilowatts and the smallest a generating facility with a capacity of 3.8 kilowatts.

Solar parks across Estonia. Estiko Energia OÜ; has constructed 13 solar parks with a total capacity of 2.3W across Estonia. The electricity generated by the solar parks is distributed to end-users, the power network and, via a direct line, to the companies of Estiko Group. Thanks to the solar parks, we have managed to reduce the CO2 emissions ...

Your solar panel choice matters. Maximise your savings and enjoy the peace of mind that comes with solar's top durability, reliability and efficiency,¹ Based on datasheet review of websites of top 20 manufacturers per IHS, as of January 2020. all backed by the industry's leading warranty.² Based on October 2019 review of warranties on manufacturer websites for top 20 ...

For the installation of solar panels and a storage device, it is a good opportunity to use KredEx's reconstruction grant for small residences, aimed at improving the energy efficiency and indoor climate of small residences, reducing energy costs and promoting the adoption of renewable energy. You can obtain all the necessary documents for the KredEx grant from Enefit.

Solarstone is reinforcing Estonia's commitment to sustainable energy solutions by opening Europe's largest solar roof factory to produce 14 times as many building-integrated solar roofs as Tesla in the U.S.

Estonian solar panel installers - showing companies in Estonia that undertake solar panel installation, including rooftop and standalone solar systems. 45 installers based in Estonia are ...

But the energy mix - the balance of sources of energy in the supply - is becoming increasingly important as countries try to shift away from fossil fuels towards low-carbon sources of energy (nuclear or renewables including hydropower, solar and wind).

Already active in 22 countries, Roofit.Solar is an Estonian CleanTech scale-up offering building-integrated solar roofs that generate solar energy while preserving aesthetics. A rooftop solar solution that seamlessly blends with the design. Solar panels have been around for a while, and the concept itself raises no eyebrows today.
