TOYO specialized in solar solutions, has announced its intention to create a solar cell manufacturing facility with an annual capacity of 2 gigawatts (GW) in Ethiopia. This strategic investment responds to the growing demand for renewable energy solutions in ...

The Company has signed a lease agreement for the new facility that is strategically located in Hawassa, Ethiopia, taking advantage of the country's favorable investment policies, tariff status, and ample hydropower supply. The project represents an estimated investment of \$60 million and will be financed using internal resources and pre-payments.

NASDAQ-listed solar company TOYO Co. Ltd has announced its plan to establish a solar cell manufacturing facility with an expected annual capacity of 2 Gigawatts (GW). The company has signed a lease agreement for the new facility that is strategically located in Hawassa, Ethiopia, taking advantage of the country's favorable investment policies ...

Manufacturers in those countries, U.S. solar producers argue, receive generous subsidies that threaten President Joe Biden's goal to boost domestic manufacturing of clean energy technologies. TOYO's new facility will be strategically situated in Ethiopia, which is exempt from a U.S. tariff on popular double-sided panels.

TOYO Co., Ltd has unveiled plans to establish a 2 GW solar cell manufacturing facility in Hawassa, Ethiopia, marking a significant expansion in the company's global production capabilities. The \$60 million project is expected to generate 880 jobs and further position Ethiopia as a key player in the renewable energy sector.
