What is Ethiosat TV?

Together, we launched Ethiosat, a free-to-air (FTA) TV platform that delivers 17 high definition (HD) and 29 standard definition (SD) private and public channels exclusively to Ethiopian direct-to-home (DTH) homes via our NSS-12 satellite.

How many TV households are in Ethiopia?

Out of Ethiopia's 20 million households, roughly 5 million are TV households. However, this number is set to grow exponentially as electricity is rolled out in rural areas--where almost 80% of Ethiopia's population resides.

Are smart TVs available in Ethiopia?

A majority of the TV sets available in Ethiopia are larger smart TVs--which can only be enjoyed with better picture quality. In the past, Ethiopian broadcasters have struggled to access services that enable bringing HD content to TV homes in the country.

What does Ethiosat do?

Ethiosat is helping broadcasters bring high-quality content to the most remote areas of Ethiopia. Apart from delivering broadcaster content, we also support key operations like content management, playout, and aggregation.

Why is Ethiosat launching nationwide?

Launching Ethiosat nationwide. Together with Ethiopian broadcasters, we're enabling viewers nationwide to access local content. The rapid growth of Ethiopia's broadcast industry has accelerated economic development, while ensuring more of its rural population can enjoy content that reflects the country's diverse culture and talent.

Is HD TV a necessity in Ethiopia?

However, this number is set to grow exponentially as electricity is rolled out in rural areas--where almost 80% of Ethiopia's population resides. While broadcasters need to ensure they can reach viewers in remote regions, delivering HD content to these regions is becoming a necessity as well.
