Can I get a solar loan in Curacao?

As you can see the more electricity usage you have, the faster you will earn back your one time investment. Many banks already offer so-called "green loans", financing the purchase of your solar system on Curacao for a monthly installment that may be even lower than the monthly price you pay for electricity now.

How much does electricity cost on Curacao?

On Curacao, the costs per Kwh calculated in 2012 is ANG 0,73. If you are a home owner, commercial property owner or owner of an industrial building on Curacao, please have a look at your electricity bills and calculate the average amount of Kwh you use and the money you spend on electricity per year.

money you can save on Curacao changing to solar energy. Think green and save ...

Curaçao presents a promising market for solar energy due to its abundant sunshine and the increasing global emphasis and government level commitment to renewable energy. With rising electricity costs and a growing awareness of environmental issues, the demand for solar energy is rapidly expanding in the private and business sector.

Solar panels are becoming more and more popular in homes. They provide clean power and save homeowners money on their electric bills. The installation process is also quite simple, but it is best to hire a professional solar system installation company for this job.
