

# Fiji solarplay power station

What is solar PV & how does it work in Fiji?

Solar PV has been in use in Fiji for almost three decades. One of the first use of solar PV was in solar home system (SHS) that provided electricity to power basic appliances in rural households where grid electricity was not reachable. Currently, there are two types of SHS installed in Fijian homes.

Where is solar Fiji located?

Lot 41-42 Pilling Road, Nasinu, Suva. Solar Fiji, supply and install the highest quality solar power systems in the South Pacific. Based in Nasinu, Suva, we specialize in Off Grid and Grid Connect Solar Power Systems and are official distributors of world leading brands such as Victron Energy, Canadian Solar, Narada Batteries and QCells.

How many MW solar power plant in Fiji?

EFL has planned for 5 MW solar power plant in Nadi, Fiji. This would require approximately 33,000 m<sup>2</sup> of land area and using Eq. 8.1, its generation potential is estimated to be around 9 GWh/annum. However, for diversifying Fiji's electricity supply sources, further capacity addition is needed for solar PV supported by wind and biomass.

What are solarplay portable power stations?

SolarPlay portable power stations are high-performance products, developed by our dedicated production plant and scientific researchers. SolarPlay has reliable products for outdoor adventures and backup power.

Where can land based solar installations be done in Fiji?

Hence, considering the large land area in Viti Levu and Vanua Levu, land based solar installations can be done near locations with demand depending on the solar resource and land availability for installations. Photovoltaic power potential in Fiji. (Source: WBG 2016)

How many solar panels are installed in Fiji?

In total, around 4 MW of solar PV is installed with some grid-connected solar systems planned and many off-grid solar system planned by Fiji Department of Energy with funding from Fijian government and overseas donor agencies.
