

31 October 2024: Over 120 participants attended the Flow Batteries Europe (FBE) webinar on 30 October 2024 celebrating the 40th anniversary of vanadium flow batteries (VFB). The webinar featured an exclusive interview with Emeritus Professor Maria Skyllas-Kazacos AM (University of New South Wales), the initial developer of the first vanadium flow battery.

Flow Batteries Europe. Avenue Adolphe Lacombl&#233; 59 1030 Schaerbeek, Bruxelles +32 2 743 29 86  
b.virsumirska@flowbatterieseurope . Keep up to date with our community. Subscribe to our mailing list and receive updates on FBE activities. First Name . Last Name . ...

4 ???&#0183; 12 December 2024: The call for proposals for IFBF2025 is now open! The International Flow Battery Forum brings together the worldwide community of everyone interested in the research, development, manufacturing, commercialisation, and deployment of flow batteries. Each year since 2010, the event discusses the latest developments in technology, heard about ...

Flow Batteries Europe is an association bringing together stakeholders across the entire flow battery value chain. Our vision is to accelerate the decarbonisation in Europe and globally by increasing the deployment of energy storage and flexibility solutions through flow battery applications. We aim to achieve it in two key ways. Firstly, by bringing together interested

A call to flow battery experts - join FBE in representing interests of flow battery research in Batteries Europe.  
09 October 2023: In January 2023, FBE joined Batteries Europe, a European Technology & Innovation Platform dedicated to advancing Research and Innovation initiatives on batteries. This partnership aims to expedite the development ...

A call to flow battery experts - join FBE in representing interests of flow battery research in Batteries Europe.  
09 October 2023: In January 2023, FBE joined Batteries Europe, a European Technology & Innovation Platform dedicated to advancing Research and Innovation initiatives on batteries. ... Flow Batteries Europe  
Avenue Adolphe Lacombl&#233; ...

Flow Batteries Europe represents flow battery stakeholders with a united voice to shape a long-term strategy for the flow battery sector. We aim to provide help to shape the legal framework for flow batteries at the EU level, contribute to the EU decision-making process as well as help to define R& D priorities.

As the global push for clean energy accelerates, efforts to integrate energy storage vary significantly across regions. Flow Batteries Europe has investigated the global landscape in its upcoming publication, Reports on Regions - Asia Pacific, with a particular focus on energy storage policies and flow batteries. This is the first of the Flow Batteries Europe Reports on ...

Discover the Flow Batteries Tour to learn about different flow battery projects being undertaken from Flow Batteries Europe members in Europe and beyond. The examples showcase how flow batteries are becoming readily available on ...

Flow batteries with electrolytes based on metals such as iron and vanadium are created ... mineral deposits in Norway and Finland will increase European supplies in the coming years.<sup>7</sup> The EU CRMs Act will likewise diversify and strengthen regional supply chains of all CRMs, including vanadium, thus supporting regional self- ...

Flow Batteries Europe is an association bringing together stakeholders across the entire flow battery value chain. Our vision is to accelerate the decarbonisation in Europe and globally by increasing the deployment of energy storage and flexibility ...

The International Flow Battery Forum (IFBF<sup>174</sup>;) is the leading event for the flow battery community. The IFBF promotes the most recent developments in the science, technology and commercialisation of flow batteries. Our conferences cover various interests in flow batteries" research and commercial aspects.

If you want more information about Flow Batteries Europe's membership, get in touch with Beata Virsumirska, FBE Policy Officer. Email her at [b.virsumirska@flowbatterieseurope](mailto:b.virsumirska@flowbatterieseurope) . Membership fees. Below is an overview of the membership fees per category: Keep up ...

Redflow will operate through a Germany-based subsidiary Redflow Europe. The company says it will supply system integrators in Europe with its zinc-bromide electrolyte flow batteries, which can be used for multiple hours and have a 100% depth of discharge. The battery maker also guarantees the energy throughput performance of its products.

FBE is an international, not-for-profit trade association aimed at accelerating decarbonisation in Europe and globally by increasing the deployment of energy storage and flexibility solutions through flow battery technology. FBE will hold their members" only General Assembly on Monday evening preceding the IFBF conference.

Flow Batteries Europe (FBE) is an international not-for-profit association aimed at accelerating the decarbonisation in Europe and globally by increasing the deployment of energy storage and flexibility solutions through flow battery technology.
