

Frames a plug power company North Korea

What will plug power do with frames?

The Frames acquisition will support Plug Power's goal to reach an installed electrolyzer capacity of three gigawatts (GW) by 2025. Plug will combine its world-class stack technology with Frames' systems integration capabilities to deliver a range of turnkey electrolyzer solutions from one megawatt (MW) containers to 1,000 MW standalone plants.

Why did Plug Power acquire frames group?

The acquisition of Frames Group adds engineering, process, and systems integration expertise to Plug Power, enabling the company to scale the delivery of green hydrogen solutions.

Is Frames related to Plug Power?

Frames and Plug Power have a relationship that dates back to 2017. Frans Roozendaal, CEO of Frames Group, stated, "We are delighted to become part of the Plug Power organization," indicating a close connection between the two companies.

What revenue opportunities will frames have from Plug Power?

Revenue opportunities from the acquisition include an order backlog valued at approximately EUR100 million and a sizeable project pipeline that will generate revenues through 2023 with major on-shore and off-shore energy providers seeking to transition to renewable energies and green hydrogen. Frames' relationship with Plug Power goes back to 2017.
