

What is Jindal India thermal power?

The company has two 600MW coal-based power plants in Angul, northeastern India, run by its Jindal India Thermal Power. JIRE aims to generate power from 5GW of solar, wind, hybrid and FDRE [firm and dispatchable renewable energy] modes.

Will BC Jindal Group invest \$100bn in Energy Transition projects?

BC Jindal Group's investment was preceded by its rival Adani Group's announcement in June that it will invest \$100bn in energy transition projects, aiming to produce key components for green energy generation in India.

Which regions in France have the most hydropower and photovoltaic installed capacity?

In 2022, the southern French regions of Auvergne-Rhône-Alpes, Occitania, Provence-Alpes-Côte d'Azur, and New Aquitaine were the national leaders for both hydropower and photovoltaic installed capacity. This text provides general information.

Will France have a new generation of nuclear power plants?

The country became a leader in nuclear power generation after the 1973 oil crisis, building over 50 such power plants that produced around two-thirds of the country's electricity. But those reactors are ageing and France has yet to bring the first of a new generation of nuclear power plants online.

Is French energy bill a step backwards?

Critics are deriding as a step backward a new French energy bill that favours the further development of nuclear power and avoids setting targets for solar and wind power and other renewables. File photo: Steam rises from the cooling towers of the Bugey nuclear power plant in Saint-Vulbas, central France on July 20, 2023. ¶ Olivier Chassignole, AFP

Critics are deriding as a step backward a new French energy bill that favours the further development of nuclear power and avoids setting targets for solar and wind power and other renewables ...

Zimbabwe's sovereign wealth fund the Mutapa Investment Fund (MIF) has backed a \$350m joint venture between state utility Zimbabwe Electricity Supply Authority (Zesa) and Jindal Africa Investments to refurbish the Hwange coal-powered plant. The refurbishment is a potentially important step in efforts to ease Zimbabwe's power supply deficit, with the country ...
