

Gkinetic energy ltd Serbia

Who is gkinetic energy?

GKinetic Energy Ltd. was founded in 2014 and is based in Newcastle West, County Limerick in Ireland. GKinetic is developing a range of innovative hydrokinetic turbines for both river and tidal flows. From the start, one of the main drivers has been the huge market opportunity to harness this reliable and predictable renewable energy resource.

How does gkinetic work?

GKinetic are leading developers of innovative, patented turbines that work with nature to generate 100% clean, predictable energy from free-flowing water. We offer a clean, sustainable alternative to diesel generators and unlike competing hydrokinetic devices, our turbine works at average, lower flow speeds.

What is gkinetic technology?

GKinetic's technology is ideally suited to island applications. The device is floating and can be moored like a boat. Due to its innovative design, it does not require blocking flows or major civil works. It can be deployed in sites as shallow as 1.8m.

When is gkinetic Brew Week?

GKinetic founders Vincent and Roisin head to #Milwaukee, #Wisconsin USA next week for the in-person BREW week and to meet with customers and partners. A highlight will be the BREW Demo Day on Wednesday, June 26th where GKinetic Energy Ltd will pitch along with the...
