Who is greenex energy?

Greenex Energy is an emerging leader in base oils and petrochemical products trade, distributing them to serve the markets in Africa, Europe, Asia and the Americas. The company stands for high-quality commodities.

What is Denmark's Green Energy Strategy?

The strategy will leverage green solutions, which will benefit both Danish consumers and the rest of the world. Denmark has focused on green energy supply for more than 40 years and is leading the way to reach the 70% CO2 emission reduction target by 2030.

Who is greenex Energy DMCC?

Greenex Energy DMCC is your expert in bridging geographical distances and provides the operations linked to successful base oil trading. We propose a large portfolio of base oil products of first, second and third group. Our supplier network gives us the necessary flexibility and enables us to meet any your technical and volume requirements.

Does Denmark have a green energy sector?

The significant share of green energy in the Danish electricity sector is a result of ambitious strategies laid down in the early 70s, Peter Jørgensen considers. These last few decades of developing wind power and renewable energy have put Denmark at the very front when it comes to green transition in the energy sector.

Why is green energy a top priority in Denmark?

Green energy has been a top priority in Denmark for decades. "Besides wind and solar, we have a large share of biomass in the electricity sector. So in Denmark we are actually already supplying about two thirds of the electricity demand by renewable energy," Peter Jørgensen, Vice President at Energinet, explains.

What is Denmark's largest offshore wind farm?

The newest of them, Horns Reef 3, is Denmark's largest offshore wind farm and will increase the Danish electricity generation from wind by around 12 per cent. With a total capacity of 407 megawatt, the 49 wind turbines of Horns Reef 3 will cover the annual electricity consumption of approximately 425,000 Danish households.
