

2. National Energy Policy Rationale The Government of St. Kitts and Nevis recognizes that: 1. Energy is fundamental to the nation's economic development goals as diversifying the economy, eradicating poverty, and securing a competitive and resilient economy that brings about the sustainable or "green" development of the Federation. 2.

This document contains the contents and preface sections of the St. Kitts and Nevis Building Code. The preface discusses that the islands are prone to natural hazards like hurricanes, earthquakes, volcanic eruptions and flooding. The building code was developed to prevent or mitigate damage from these events, especially for poorer residents. It aims to ensure all ...
