

Greenland li ion battery pack

What is Green Li-ion battery recycling?

Green Li-ion battery recycling is a technology that enables TES to achieve the highest commodity-grade recovery rates in the industry. By using this technology, TES's battery recycling process will yield recovered materials that will ultimately be reused in the forward manufacturing supply chain and contribute to the circular economy.

Can DNK design a lithium ion battery pack?

DNK has the capability to custom design a Lithium Ion battery pack to fit your product's specific needs. From small single-cell packs to large battery packs, DNK can design safe and reliable solutions to meet your specifications. DNK prides itself on using only the highest quality cells to make Lithium Ion battery packs.

What is a lithium ion battery?

Lithium Ion has the highest power density of any rechargeable battery chemistry. It is lightweight and offers great cycle life even more than 500 which makes it the ideal product for many new design solutions. DNK has the capability to custom design a Lithium Ion battery pack to fit your product's specific needs.

What makes DNK lithium ion batteries so special?

DNK prides itself on using only the highest quality cells to make Lithium Ion battery packs. DNK takes the utmost care to ensure that all batteries meet the highest safety standards prior to leaving our facility. See our Test Report for more information. The factory is certificated with ISO 9001, And batteries with UL ,UN 38.3 And IEC62133 ,MSDS.

What are rechargeable lithium ion batteries used for?

Rechargeable lithium ion batteries are commonly used in a broad spectrum of applications, including: Consumer Electronics (Laptop, Digital cameras, Video cameras, E-cigarettes and Other Portable Electronic Devices) Electric vehicles, E-bikes, AGV (Automated Guided Vehicle), Golf Cart, Forklift
